OUR MISSION

Friends of the Rainforest is dedicated to promoting a sustainable world by educating and inspiring children and adults to take action to protect, support, and expand the Rainforest through our education programs, grants, and ecotours.

IT ALL STARTED IN 1987...

... when a group of Swedish school children started a worldwide fundraising effort to purchase rainforest land in Monteverde, Costa Rica, to protect its priceless natural treasures forever. This land became the Children's Eternal Rainforest, one of the largest private preserves in Costa Rica. Our founder, Rachel Crandell, took her passion for the Rainforest, conservation, and education and created Friends of the Rainforest (then called the Monteverde Conservation League U.S.) to carry on her mission of connecting kids and adults to the Rainforest and sharing her love and enthusiasm.

HAPPY NEW YEAR FROM FRIENDS OF THE RAINFOREST!

Thank you to everyone for making this year an incredible year for Friends of the Rainforest. Early this year, we were sad to say goodbye to our previous Education Director, Jamie Kisela, as she moved back home to Washington State, however, we were joined by Tori Green, our new Education Director, who has brought a phenomenal amount of expertise and experience to our team, from board management to grant-writing. She hit the ground running, and we can't express our gratitude for her enough.

Thanks to your help, we are so thrilled to announce that our Crandell-Waller Scholarship program is fully funded for 2024, and our first scholarship trip is set to travel to the Children's Eternal Rainforest in July. This scholarship will provide important financial aid to students who otherwise wouldn't be able to afford our ecotour programming and will help us to further confront inequality in access to environmental education in our community of St. Louis.

Join us in 2024 as we strive to grow our organization, our reach, and our impact. We are unable to do this important work without your help. Your support of Friends of the Rainforest ensures our ability to provide important education to our St. Louis community, important conservation grants to our friends at the Monteverde Conservation League, and important experiences to the explorers and adventures that join us on our ecotour trips.

Eternal thanks,

Grant #36

Land Purchase and Protection of the Cruz-Madrigral Property

\$93,066.00 to the Monteverde Conservation League

Through this grant, MCL finalized the purchase of the 54.8-hectare (135.4 acre) Cruz-Madrigral property, which borders the CER on the Pacific slope below Monteverde, in the southwestern part of the reserve. The property is about 80% forest, including areas in natural regeneration, and about 20% pasture. Elevation ranges from 1,000 to 1,400 meters (3,280 to 4,595 feet) above sea level.

In addition to being strategic in terms of its physical location, the Cruz-Madrigral property fits squarely into MCL's vision of pursuing ecological connectivity down the Pacific slope in the Bellbird Biological Corridor. In recent years there has been growing recognition among conservationists that the Pacific slope of the Monteverde region requires urgent action. The Cruz-Madrigral property falls within the Premontane Wet Forest life zone, which ranges from 800 to 1,450 meters (2,265 to 4,760 feet) above sea level and is commonly referred to as "rain shadow forest" in the Bellbird Corridor.

Grant #37

Environmental Education in Monteverde, Costa Rica

\$25,170 to the Monteverde Conservation League

This grant helps sustain MCL's Education and Outreach Coordinator position in Monteverde but also funds 24 additional field trips for local Monteverde schools and families and an overnight excursion to San Gerardo field station for 16 students. Additionally, this grant allows MCL to extend their education program to underserved rural communities on the southern border of the CER, serving as a pilot for creating opportunities for environmental education in other remote, agriculture-based communities.

Grant #35 Update

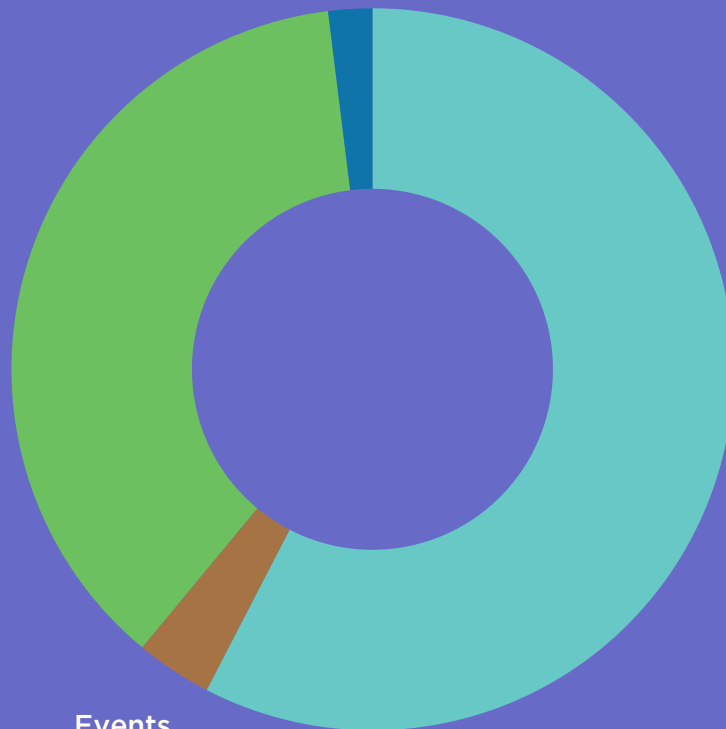

Headquarter Update for Forest Rangers

\$11,910.00 to the Monteverde Conservation League

This project was postponed first due to the absence of key maintenance MCL staff members, and then due to other urgent maintenance priorities in the Children's Eternal Rainforest. In the last couple of months of 2023, MCL completed the bulk of the work on the Ranger Headquarters. MCL has now replaced the roof, replaced the electric wiring, repaired walls, created interior divisions for sleeping quarters, installed new windows and painted the interior and exterior of the building.

Still to be completed is the installation of flooring, the construction of a new bathroom and shower, the purchase of bunk beds and mattresses, the construction of a new kitchen counter, and the purchase of a stove, cooking implements, and food storage containers.
